ABSTRACT

The project "Student Resource Portal" is a comprehensive website designed to support students by providing essential information and resources related to entrance exams, scholarships, and financial aid. The website is structured into three main sections: Entrance, Scholarships, and Financial, each offering detailed information and tools relevant to student's needs. The portal includes three key user roles: User, Manager (Owner), and Admin (Software Developer), each with specific functionalities.

Modules and Key Features

1.User:

- **Login:** Secure user login to access personalized features.
- **Registration:** User registration process to create an account on the platform.
- **Document Upload:** Document upload process is used to verify the user.
- **Profile Management:** Manage user profiles, including personal information.
- **View Contents:** Users can view the contents such as the details of entrances, scholarships and financial support such as loans.
- **Mock Test:** User can participate in mock tests to improve their performance for exam
- **Result:** Users can see test results and the users can validate themselves.
- **Payment:** Secure payment gateway integration for processing payments.
- **Feedback:** Provide feedback on exams, scholarships, and loans based on user experiences.

2. Manager:

- **Login:** Secure login for managers to access administrative features.
- **Content Management:** Add, update, and delete information related to entrance exams, scholarships, and loans.
- **User Management:** Manage user accounts, including registration approval and rejection.
- **Notifications:** Send notifications or the reason regarding the rejection of their registration.
- **Mock Test:** Assigning tests to the users according to the entrance exams.
- **Evaluating and Publishing:** Evaluating and publishing the results of the tests of the user.
- **Payment Management:** Monitor, manage user payments and provide support for payment issues and refunds.

- **Feedback Viewing:** View user feedback on exams, scholarships, and loans to gather insights and make improvements.
- **Complaint Registration:** Manager can register a complaint about the issues to the admin.

3.Admin

- **Login:** Secure login for admins to access technical and content management features.
- **Manager Management:** Add the details of the manager and deleting the managers
- **Content Management:** Add and update information related to entrance exams, scholarships, and loans.
- **Support:** In this the admin can view the complaints or the issues registered by the manager and provide support to them
